

Hemant

Aspiring Software Development Engineer with experience building scalable, production-ready web applications. Proficient in JavaScript, React, Next.js, Node.js, and modern full-stack frameworks, with a solid foundation in data structures, system design, and writing clean, maintainable code.

Email: hemantdowal49@gmail.com | Mobile: +91-8920709153 | LinkedIn: [linkedin.com/in/hemantmeena049](https://www.linkedin.com/in/hemantmeena049)
Portfolio: portfolio-hemant.vercel.app | GitHub: github.com/hemantmeena2005

Education

ABV-Indian Institute of Information Technology and Management <i>Integrated M.Tech in Information Technology</i>	CGPA: 9.54 2022 – 2027
Nalanda Modern Public School <i>CBSE Class XII</i>	Percentage: 90% 2022

Skills

Languages: Python · JavaScript (ES6+) · Java · C++ · TypeScript
Web Development: Node.js · React.js · Express.js · Next.js · Tailwind CSS · HTML5/CSS3
Databases: MongoDB · Appwrite · MySQL · PostgreSQL
Cloud & DevOps: AWS · Docker · Vercel
Tools: Git · GitHub · GSAP · Rapid API · Clerk Auth

Projects

Invoicely Next.js 14 , TypeScript , MongoDB , Stripe – Architected a type-safe SaaS platform using Next.js 14 for automated client billing and financial management. – Integrated Stripe API and email automation to reduce manual invoicing overhead by 60% . – Deployed secure OAuth authentication and real-time analytics dashboards to monitor platform performance.	June 2025
AI Recipe Generator Next.js , Tailwind CSS , Cohere API – Built an interactive assistant utilizing the Cohere API for real-time culinary recommendations. – Built a mobile-first, responsive interface with Tailwind CSS focused on high-speed user interactions. – Optimized system resilience via asynchronous error-handling, reducing failed API requests by 35% .	May 2025
ChatMate Next.js , Appwrite , Tailwind CSS – Engineered a full-stack social media application featuring instant messaging and real-time content sharing. – Leveraged Appwrite for serverless backend services, managing user authentication and media storage. – Improved database query performance and data fetching logic to improve server response times by 30% .	July 2024
PassOp React.js , Local Storage , JavaScript – Built a privacy-centric password manager using React.js , eliminating backend risks via client-side architecture. – Implemented secure CRUD operations and encrypted clipboard handling to streamline credential management. – Enforced Zero-Trust security by utilizing local-only persistence, achieving 100% offline data protection.	June 2024

Experience

Explainable AI for Melanoma Detection Python , PyTorch , Computer Vision – Created a CAD system using a Convolutional Autoencoder to extract features for melanoma classification. – Engineered an Attention-based Network to prioritize critical lesion characteristics, achieving 90% accuracy . – Enhanced transparency by implementing visualization layers, addressing the "black-box" challenge in medical AI.	Summer 2025
Automatic Traffic Violation Detection OpenCV , YOLO , Python – Designed a computer vision system for real-time traffic monitoring and identification of vehicle violations. – Optimized detection pipelines to handle environmental noise, reducing false positive rates by 40% . – Improved system robustness against varied lighting through advanced data preprocessing and feature extraction.	Summer 2024

Achievements & Leadership

- Solved **500+ DSA problems** across LeetCode, GeeksforGeeks, and CodeStudio.
- LeetCode Knight 1850 MAX.**
- Infosys HackwithInfy 2026 Round 2.**
- GATE 2026 · JEE Advanced 2022.**

Technical Member <i>Celestia – Annual Technical Fest of IIITM Gwalior</i> – Created branding assets, posters, and digital creatives for technical fest outreach.	IIITM Gwalior
